### School Tax Issue Saturday **Baseball Season** To Be Inaugurated

Baseball play for teams of the Hamlin Little League will get underway Saturday evening at the Pony League ball field adjoining Pied Piper stadium, it is announced this week by Little League officials.

Saturday Evening

Two three-inning games will be played as a pre-season warm-up by the Braves vs. Yankees and Cardinals vs. Giants Saturday night. Superintendent of Schools C. F. Cook will throw the first ball in the initial game.

Little League officials declare that the regular baseball field for the four teams, located on Southwest Avenue E, is closed to play for about two weeks to permit further growth of the grass turf, and the Little League will use the Pony League field during that waiting period.

Regular matched play will begin Monday night. A complete schedule of the games is found on an inside page of today's Herald.

#### LONG INFLATION PLAYS HAVOC WITH INCOMES

ing havor with incomes of those couples who are planning their retirement, say the editors of Changing Times. Anyone saving money for the day he reaches 65 will have to up that figure considerably for every year before he attains that age.

Today the minimum figure of \$2,000 to \$2,500 a year to live in "modest but adequate" circumstances is needed by a retired couple. Sut they can easily use more. They should not expect to get by on much less without real sacrifice or without "invisible income" to draw upon—such things as a home owned outright into your income, or furnished free, home grown foods, etc.

This minimum is based on the requirements of a retired couple about 65, living in rented quarters of two or three 100ms, city dwellers with no car. It represents a level of living which glovides the goods and services necessary to maintain health and allow normal participation in community life, in accordance with current American standards. Social and conventional needs are taken into account. Naturally the level of living is not luxuricus, but it provides for more than the basic essen-

Most couples living on today's average income of \$4,000 or \$5,000 a year, just before retirement, would have little difficulty in adjusting to that minimum. Couples now living on \$20,000 would have the devil's own time of it, according to the editors.

An approximate yardstick for any couple liguring on what they will need to live on when they retire can be applied. One-third to one-half of pre-retirement income is the of your future needs.

The prospect of long term inflation is play- | most widely used measure. But the closer they are to the day of retirement the harder and more precise their figuring should be.

> In order to plan your retirement needs, visualize yourself in the retirement years and estimate your various expenses. Eliminate from today's budget such items as the cost of teeding, clothing and raising children, transportation to and from work, savings pro-

Unfortunately, figuring what you will need by today's cost of living is not realistic. You must take into account how inflation will eat

And there is no guarantee that it will not. In fact, expert opinion agrees almost unanimously that living costs will continue to rise over the long haul. There may be short term interruptions, when prices might decline. But the long term outlook is for continued inflation.

How much should you adjust this income you have decided upon for the probability of nigher prices? There is no way to say exactly and with certainty, the editors continue. Nobody is that good a prophet. You can, however, protect yourself with a reasonable assumption—one that could prove wrong, but that has an odds-on chance of being right.

Taking into account the long term inflation of the past, and the best opinions on future prospects. Changing Times editors suggest hat you up your income estimate by about two per cent each year from now until the time you retire.

This margin for inflation, although roughly calculated, will certainly yield a safe estimate

#### Texas Population Grows

For the first time in Texas history, live births passed the quarter-million mark. More than 252,000 births were recorded as the year ended, compared with 72,000 deaths. That is a healthy three and one-half to one ratio of births over deaths, and indicates a natural population increase of 180,000.

Other health events were equally significant. An influenza epidemic-the worst since 1918caused a flurry of activity among health officials in months just before the year died. Before it was over almost 2,000,000 doses of vaccine were rushed into the state. Vaccineand early warning-undoubtedly lessened the epidemic's impact.

As the official state agency for city planning assistance, the State Health Department processed 14 applications for federal financial aid. Total cost of projects, all in cities of less than 25,000, is \$451,252, of which the federal share

Spring floods were behind the urgency of \$8 special health projects costing \$417,000, ir.cluding control of insect vectors, rehabilitation of water plants and chlorination of thousands of farm wells.

Almost 1,800,000 shots of polio vaccine were distributed throughout Texas, cutting the incidence of polio to less than half that of the previous year. Only 729 cases were reported in 1957, compared with a five-year median of 1,751 cases.

#### A Good Deed and Bananas

The large fruit truck came to a jarring halt. A minister standing nearby saw the driver slump over the door that was slightly ajar.

Finding the driver exceedingly ill, the minisic! promptly assisted him in his own car and drove him to the hospital. His condition remained critical for many days. After a stay in the hospital the patient was dismissed and went to his home in another city.

One afternoon, many months later, the min-

### Nuggets of Thought

From the lowest depths there is a path to the loftiest heights. The tendency to persevere, to persist in spite of hindrances, discouragements and impossibilities—it is this in all things that distinguishes the strong soul from the weak. The man without a purpose is like a ship without a rudder—a waif, nothing, noman. Have a purpose in life, and, having it, throw such strength of mind and muscle into your work as God has given you.—Thomas

When nothing seems to help, I go and look at a stone cutter hammering away at his rock, perhaps a hundred times without as much as a crack showing in it. Yet, at the hundred an dfirst blow it will split in two, and I know it was not that blow that did it, but all that had gone before.-Jacob A. Riis.

Make a rule and pray God to help you to keep it, never, if possible, to lie down at night without being able to say, "I have made one human being, at least, a little, wiser, a little happier or a little better this day." You will find it easier than you think and pleasanter, too.—Charles Kingsley.

#### Editorial of the Week

NEWS IN POPUPLATION FIGURES

Population statistics are interesting. Further evidence comes from the Bureau of Census that more women than men are living into middle and old age. The lower age brackets show a different picture, however. In the 18 to 24-year span the two sexes are about equal in numbers, and under 18 there are 1,200,000 more boys than girls.

Apparently the males are just as healthy as the females in the early years. It is when they get past 40 or so that the men begin to deteriorate faster than women. Above 25 the women outnumber men by nearly 3,000,000, and the older they are the greater the dis-

males under 18 is reassuring. There are more boys who could be interested in scientific careers. And, with more young men around, week-end on the 21-mile pipeline "I was a stronger and you took me in, sick I the marrying opportunities for girls should improve a comforting fact for the last sex,-Grit the new Paint Creck Lake.

#### Edward W. Gardner Wins \$100 in Slogan Contest by Chevrolet

Edward W. Gardner of 126 Northwest Avenue G, Hamlin, is one of the top winners in a nation-

cial feature following introduction and, at times bad teaching are recent additions to the company's 1958 task force truck fleet. Awards were made on the basis of personal calls made by salesmen on trucks owners.

Gardner, now serving his tenth year as a retail salesman with Carl Murrell Chevrolet Company, tests conducted in 1956 and 1957. It has become so commonplace that his little four-year-old daughter, Jan, thinks that her daddy is supposed to bring home a prize each time he goes to a sales meet-

SO NEAR AND YET SO FAR-It's hands off the cash for Mrs. Mildred L. Francis, who works for the Bexar County treasurer. Reason? Mrs. Francis is allergic to money. Either bills or silver cause a rash. Bexar County Treasurer Cecil Lipscomb said he will restrict Mrs. Francis to bookkeeping duties and see that she is always paid by check.

#### Superintendent of Schools Urges All Students to Attend Balance of School

End of the current school year is fast approaching in the Hamlin Schools, Superintendent of Schools C. F. Cook, reminded this week, C. F. Cook, reminded this week, who made the following observa-

Time has rushed by and we have so many things to do. We trust that the people of this community are pleased with the results of our school program thus far. The administration and teachers have tried to give the students the information that will help them to be beter students as well as better citizens.

Closing of each school year is both pleasant and unpleasant. We always have children who are not doing well in their classes. This is caused by many conditions: Some children were not ready for school in the lower grades and, due to this fact, they were behind from the beginning of their school The slogan competition was life. Lack of interest in the home, conducted by Chevrolet as a spe- lack of interest by the students,

There are chwage some children who are not pessed. When this prevails you will know that the best interest of your child has been taken into consideration. We are interested in our children because that is why we have schools.

The teachers and principals of your child will be happy to discuss your problems. Please call on The superintendent of schools will also be happy for you to visit his office on any school problems. School problems are important to everyone. It is a community affair.

I would like to insist that your child attend school every day from now until school closes, because our average daily attendance needs improving.

In Concord, Massachusetts, municipal matters are still decided upon at town meetings.

#### Thomas C. Farrow Victim Saturday

Of Heart Attack tired painting contractor, were conducted Monday aftrenoon at 2:30 o'clock at the First Baptist

Church. Farrow, who had resided in this community for 42 years, succumbed Saturday evening at the Hamlin Memorial Hospital following a heart attack suffered a few minutes previously at his home a 353 Southwest Fourth Street.

Born June 24, 1885, in Alabama, was the son of Mr. and Mrs. J. D. Farrow. He married the former Chloe Boyd in Hamlin on April 13, 1913. He was a member of the First Baptist Church. Officiating at the final rites were Rev. Calvin Bailey, pastor; Rev. Henry Littleton of Breckenridge, former Hamlin pastor; and Austin Siburt, minister of Hamlin Church of Christ.

Burial was in the Hamlin East Cemetery under the direction of Hamlin Funeral Home. Pallbearers were Howard Nall, F. M. Crow. T. W. McGuire, Carl Young, Travis Conner and Weldon Hudson.

Surviving Farrow are his wife, Mrs. Tom Farrow of Hamlin: one other son, Boyd Farrow, died in

Rural Life Sunday

nated as Rural Life Sunday in

Jones County, and special services

honoring 4-H Club members and

their adult leaders will be held

in Jones County churches on that

day, it is announced by Kirby

Clayton and Mary Y. Newberry,

The observance of Rural Life

rural people of European coun-

tries have asked God's blessings

as they stood in the fields on

this day of blessing. It is the

time to emphasize the meaning of

Christianity in rural life, for the

invocation of God's blessings upon

the seed the fruits of the soil and

the consideration of justice for

agriculture and the spiritual values

This Rural Life Sunday will

provide an opportunity for the

600 Jones County 4-H Club mem-

county extension agents,

To Be Observed

# Financial Report of School **Shows Needs for More Funds**

Since 1954 to the 1957-58 school year there has been a large decrease in available funds for the Hamlin Independent School District. And costs of operating the schools have increased \$42,059, while the receipts have increased only \$4,415. This show a loss or decrease in overall revenue of \$37,634. In other words, the schools have some \$37,634 less to spend this year than in 1954. The same school program is being condu cted now as in 1954. Hence the school board has deemed an increase in revenues is mandatory. Following a petition by many taxpayers, an election has been called for May 10 to vote on inccreasing the tax rate limit to \$1.50.

The following figures about school costs, property valuations and revnues is designed to give pertinent information about the schools' business. The statistics are prepared by school officials from records of the district.

#### RECEIPTS FOR YARS 1954 TO 1958

	ILCLII	ID I OIL I IIIII		
Receipts from State	Per Capita	State Aid or Salary and Operation	Transportation	Total
1954-55	\$72,202.00	\$45,097.00	\$17,866.00	\$135,165.00 146,484.00
1955-56	85,510.00	43,170.00	17,804.00 17,804.00	138,609.00
1956-57	84,629.00	36,176.00	16,354.00	153,111.00
1957-58	82,333.00	54,424.00	10,554.00	

82,333.00 1957-58... There has been a rather large increase in our state receipts during the past four years. This is due to the increase in teachers' salaries. The increase this last year

5,952.00 over the pre	evious year, or \$17,946.00 since 1954.	
Cal Receipts Each Year 1954-55	Valuation Each Year \$17,150,000.00 17,487,000.00	Receipts Each Year 212,531.00 \$206,754.00
1956-57	16,405,000.00 16,339,998,00	199,640.00 199,000.00

16,339,998.00 1957-58..... There has been a decrease in our valuations for local taxes, which was caused by oil depletion and oil proration. We have lost \$13,531.00 in local revenue during the past two years.

### SCHEDULE OF EXPENDITURES FOR INSTRCTION AND TRANPORTATION

SCHEDULE OF EXPENDITURES FOR INSTRICTION THE			Total Expenditures from	
Year         Instruction           1955-56         205,878.00           1954-55         \$193,695.00           1956-57         206,091.00           1957-58         227,618.00	1.ocal Assignment 65,691.00 \$64,118.00 68,163.00 77,666.00	\$23,412.00 25,771.00 20,627.00 18,000.00*	\$291,225.00 297,225.00 294,881.00 323,284.00	

There has been an increase in the instructional cost in addition to the big increase in our local assignment (Hamlin School District's part of the state program). Our transportation cost has been excess to our state aid for transportation. The cost of instruction has risen \$21,527.00 over last year, or \$42,059.00 since 1954. The local assignment has risen \$9,503.00 over last year, or \$13,548.00 since 1954.

#### Actor Glenn Ford Is Doug Ford Awarded Exception to Rule: He McMurry Track Letter Wants to Perform

With more stars than ever before doubling in brass, the rare one who just acts.

One such exception is Glenn Ford, who has been broached with tion in the film capital. To all dier. such requests his answer is a def-

"It's not that I don't have an interest in producing or directing, or that I don't appreciate the wisdom of varying my activities," Ford states. "It's just that I am fruit. more interested in being an actor.

"I strongly believe that becoming a star is 90 per cent luck and 10 per cent talent. But I'm just as sincere in my feeling that remaining a star is 90 per cent ability and 10 per cent luck. It takes constant work and concentration.

Ford's picture record underlines the fact that even it he should want to explore other fields, it would take more time than he currently has. As one of the busiest of actors, he has had the fullest schedule of his career since signing a contract a few years ago. His newest picture is the M-G-M "The Sheepman," in which he co-stars with Shirley MacLaine. Following its completion he began preparations for "Imitation General." In the meantime producers are readying properties to keep Ford active steadily through-

out the year. "The Sheepman" plays at both the Hamlin Drive-In and Ferguson Theaters next Sunday, Monday and Tuesday.

#### LONG INFLATION PLAYS HAVOC WITH INCOMES

The prospect of long term inflation is playing havec with incomes of those couples who are planning their retirement, say the editors of Changing Times. Anyone saving money for the day he reaches 65 will have to up that figure considerably for every year before he attains that age.

Today the minimum figure of \$2,000 to \$2,500 a year to live in "modest but adequate" circumstances is needed by a retired couple. But they can easily use more. They should not expect to get by on much less without real sacrifice or without "invisible income" to draw upon—such things as a home owned outright or lumshed free, home grown foods, etc.

This minimum is based on the requirements of a retired couple about 65, living in rented quarters of two or three 100ms, city dwellers with no car. It represents a level of living which provides the goods and services necessary to maintain health and allow normal participation in community life, in accordance with current American standards. Social and conventional needs are taken into account. Naturally the level of living is not luxurious, but it provides for more than the basic essen-

Most couples living on today's average income of \$4,000 or \$5,000 a year, just before retirement, would have little difficulty in adjusting to that minimum. Couples now living on \$20,000 would have the devil's own time of it, according to the editors.

An approximate yardstick for any couple figuring on what they will need to live on when they retire can be applied. One-third

most widely used measure. But the closer they are to the day of retirement the harder and more precise their figuring should be.

In order to plan your retirement needs, visualize yourself in the retirement years and estimate your various expenses. Eliminate from today's budget such items as the cost of feeding, clothing and raising children, transportation to and from work, savings pro-

Unfortunately, figuring what you will need by today's cost of living is not realistic. You must take into account how inflation will eat into your income.

And there is no guarantee that it will not. In fact, expert opinion agrees almost unanimously that living costs will continue to rise over the long haul. There may be short term interruptions, when prices might decline. But the long term outlook is for continued inflation.

How much should you adjust this income you have decided upon for the probability of higher prices? There is no way to say exactly and with certainty, the editors continue. Nobody is that good a prophet. You can, however, protect yourself with a reasonable assumption—one that could prove wrong, but are making that area interesting that has an odds-on chance of being right.

Taking into account the long term inflation | week purchased the O. H. Berry of the past, and the best opinions on future prospects. Changing Times editors suggest that you up your income estimate by about two per cent each year from now until the time you retire.

This margin for inflation, although roughly calculated, will certainly yield a safe estimate

#### Texas Population Grows

For the first time in Texas history, live births From the lowest depths there is a path to passed the quarter-million mark. More than 252,000 births were recorded as the year ended, compared with 72,000 deaths. That is a healthy three and one-half to one ratio of births over deaths, and indicates a natural population increase of 180,000. Other health events were equally significant.

An influenza epidemic-the worst since '918caused a flurry of activity among health officials in months just before the year died. Before it was over almost 2,000,000 doses of vaccine were rushed into the state. Vaccineand early warning-undoubtedly lessened the epidemic's impact.

As the official state agency for city planning assistance, the State Health Department processed 14 applications for federal financial aid. Total cost of projects, all in cities of less than 25,000, is \$451,252, of which the federal share is \$216,483.

Spring floods were behind the urgency of \$8 special health projects costing \$417,000, including control of insect vectors, rehabilitation of water plants and chlorination of thousands of farm wells.

Almost 1,800,000 shots of polio vaccine were distributed throughout Texas, cutting the incidence of polio to less than half that of the previous year. Only 729 cases were reported in 1957, compared with a five-year median of 1,751 cases.

#### A Good Deed and Bananas

The large fruit truck came to a jarring halt A minister standing nearby saw the driver slump over the door that was slightly ajar.

Finding the driver exceedingly ill, the minisies promptly assisted him in his own car and drove him to the hospital. His condition remained critical for many days. After a stay in the hospital the patient was dismissed and went to his home in another city.

One afternoon, many months later, the min-

the loftiest heights. The tendency to persevere, to persist in spite of hindrances, discouragements and impossibilities—it is this in all things that distinguishes the strong soul from the weak. The man without a purpose is like a ship without a rudder—a waif, nothing, noman. Have a purpose in life, and, having it, throw such strength of mind and muscle into your work as God has given you.—Thomas

When nothing seems to help, I go and look at a stone cutter hammering away at his rock, perhaps a hundred times without as much as a crack showing in it. Yet, at the hundred an dfirst blow it will split in two, and I know it was not that blow that did it, but all that had gone before.—Jacob A. Riis.

Make a rule and pray God to help you to keep it, never, if possible, to lie down at night without being able to say, "I have made one human being, at least, a little, wiser, a little happier or a little better this day." You will find it easier than you think and pleasanter, too.—Charles Kingsley.

#### Editorial of the Week

NEWS IN POPUPLATION FIGURES

Population statistics are interesting. Further evidence comes from the Bureau of Census hat more women than men are living into middle and old age. The lower age brackets show a different picture, however. In the 18 to 24-year span the two sexes are about equal n numbers, and under 18 there are 1,200,000 more boys than girls.

Apparently the males are just as healthy as the females in the early years. It is when they get past 40 or so that the men begin to deteriorate faster than women. Above 25 the women outnumber men by nearly 3,000,000, and the older they are the greater the dis-

On the other hand, the preponderance of Hamlin this week by J. T. Smith males under 18 is reassuring. There are more boys who could be interested in scientific careers. And, with more young men around, "I was a stranger and you took me in, sick I the marrying opportunities for girls should im-I prove or comforting fact for the lan sex. - Grit the new Paint Creek Lake.

#### BASEBALL SEASON IS HERE

Baseball season is here again . . . and hundreds of youngsters in Hamlin are trying out for positions on the Little League and Pony League teams here.

Southwestern Bell Telephone Company wishes to give a sincere "pat on the back" to every worker and sponsor in the city who helps make the baseball program possible. It's a at recreational outlet for the youth of the community . . . and goes a long way in building the youth of today for citizens

Every team needs the backing of you and me. Let them know that we're watching . . . and working!

#### MOTHER'S DAY REMINDER

Sunday, May 11, will be Mother's Day. Unfortunately, we all won't be able to drop in and wish our Mother a "Happy Mother's Day." The next best thing—as I see it—is to call her on the telephone.

Lots of sons and daughters call home on Mother's Day. That's why I suggest that you place your call early and call by number. In that way you'll avoid delay.

So don't forget-plan now on a Long Distance call on May 11 to make Mother's special day even happier.

#### ON AND OFF THE JOB

On the job, telephone people here in Hamlin have a responsible part in keeping the town's telephone system working properly to serve you.

But quite a few telephone people go even farther than that in serving the community

Whatever our jobs, whatever our favorite community activities, we telephone people share a common interest with you-making Hamlin the best possible place to live in and raise our families

Call by number. It's twice as fast. SOUTHWESTERN BELL TELEPHONE COMPANY

interfere in the Texas Employ- the needy. ment Commission's dismissal of its

Ousted Attorney Lee G. Williams said he would appeal to the month by a two-to-one commission vote. R. F. Newman, labor representative on the commission, opposed the decision by Chairman S. Perry Brown, public representative, and Maurice Acers, management representative.

Brown told the Merit System Council he felt Williams' personal all costs. feelings prejudiced his legal opinions in favor of labor. Biased legal advice, Brown contended, "is probably worse than none at all."

Williams exhibited legal opin- to invite new industries ions he had prepared favoring management's side. Newman and three former commission members pled on Williams' behalf.

New Tack on Tidelands. - International boundary discussion at the current Geneva Conference may dim Texas' hopes in the tide-Will Wilson noted in a recent

Russia wants national boundaries to be 12 miles out from land, wants three miles out. Texas, in said. a case to be heard by the U.S. Supreme Court October 13, will be trying to protect its longstanding claim to 101/2 miles.

But, said Wilson, "the United States can't plug for a three-mile international boundary and turn round and give Texas 10 miles." If the three-mile boundary sticks, he said, Texas will then ask for oil rights to the 10-mile limit.

Why It Costs More. - Wraparound windshields and loads of chrome inevitably mean higher rates for automobile insurance.

A special legislative committee investigating auto coverage rates was told by State Insurance Department officials that costs of both materia's and labor hate gone up. New rates, to be set next summer, probably will have to be higher, he said.

In addition to staggering tab for fixing the modern day palaceon-wheels, if it gets smashed, high socident records boost insurance tates in a locality.

For instance, said a department official, Dallas' accident rate is

# Financial Report of School

Shows Needs for More Funds Since 1954 to the 1957-58 school year there has been a large decrease in available funds for the Hamlin Independent School District. And costs of operating the schools have increased \$42,059, while the receipts have increased only \$4,415. This show  $\alpha$ loss or decrease in overall revenue of \$37,634. In other words, the schools have some \$37,634 less to spend this year than in 1954. The same school program is being condu

for May 10 to vote on inccreasing the tax rate limit to \$1.50. The following figures about school costs, property valuations and revnues is designed to give pertinent information about the schools' business. The statistics are prepared by school officials from records of the district.

cted now as in 1954. Hence the school board has deemed an increase in revenues is

mandatory. Following a petition by many taxpayers, an election has been called

#### RECEIDTS FOR VARS 1954 TO 1959

RECEIPTS FOR YARS 1954 TO 1958					
Receipts from State	Per Capita	State Aid or Salary and Operation	Transportation	Total	
1954-55 1955-56	\$72,202.00 85,510.00	\$45,097.00 43,170.00	17,804.00 146,484	\$135,165.00 146,484.00 138,609.00	
1956-57,	84,629.00 82,333.00	36,176.00 54,424.00	17,804.00 16,354.00	153,111.00	

82,333.00 1957-58..... There has been a rather large increase in our state receipts during the past four years. This is due to the increase in teachers' salaries. The increase this last year is \$15,952.00 over the previous year, or \$17,946.00 since 1954.

\$15,952.00 over the pre	vious year, or \$17,940.00 since 1501.	
Local Receipts Each Year	Valua tion Each Y ear	Receipts Each Year
1954-55	\$17,150,000.00	212,531.00 \$206,754.00
1955-56	17,487,000.00	199,640.00
1957-58	16,339,998.00	199,000.00

There has been a decrease in our valuations for local taxes, which was caused by oil depletion and oil proration. We have lost \$13,531.00 in local revenue during the past two years.

#### SCHEDULE OF EXPENDITURES FOR INSTRCTION AND TRANPORTATION

SCHEDULE OF EXPENDITURES FOR INSTRCTION 2.	Total Expenditures from ortation Funds State Subsidized
1955-56 205,878.00 65,691.00 \$23, 1954-55 \$193,695.00 \$64,118.00 25,	412.00       \$291,225.00         ,771.00       297,225.00         ,627.00       294,881.00         ,000.00*       323,284.00

There has been an increase in the instructional cost in addition to the big increase in our local assignment (Hamlin School District's part of the state program). Our transportation cost has been excess to our state aid for transportation. The cost of instruction has risen \$21,527.00 over last year, or \$42,059.00 since 1954. The local assignment has risen \$9,503.00 over last year, or \$13,548.00 since 1954.

#### Exception to Rule: He McMurry Track Letter Wants to Perform

With more stars than ever beactor in Hollywood these days is track season by McMurry College at the guest house on the evening one who just acts.

Ford, who has been broached with amily wagon. "If all the kids dard; Kyle Thompson, staff writdidn't go," she said, "we would er for United Press; and M. C. ed to write his own ticket with tion in the film capital. To all dier. such requests his answer is a definite "No."

"It's not that I don't have an interest in producing or directing, or that I don't appreciate the wisdom of varying my activities," more interested in being an actor.

"I strongly believe that becoming a star is 90 per cent luck and 10 per cent talent. But I'm just as sincere in my feeling that remaining a star is 90 per cent ability and 10 per cent luck. It takes constant work and concentration.

Ford's picture record underlines the fact that even if he should want to explore other fields, it would take more time than he currently has. As one of the busiest of actors, he has had the fullest schedule of his career since signing a contract a few years ago. His newest picture is the M-G-M "The Sheepman," in which he co-stars with Shirley MacLaine. Following its completion he began preparations for "Imitation General." In the meantime producers are readying properties to keep Ford active steadily through-

"The Sheepman" plays at both the Hamlin Drive-In and Ferguson Theaters next Sunday, Monday and Tuesday.

### Bread Making in Modern Bakery

Lions Sec Film on

Methods of bread making have zone through a drastic change the past 35 years, declared Ted Russell Hamlin banker, after he and other members of the Hamlin Lions Club witnessed a colored film that depicted a tour through a modern bakery as the program feature when the group met in weekly luncheon at the off mill guest house.

(Russell admitted that he worked in a bakery in Fort Worth many years ago).

The film was presented to depict the processes of assembling ingredients, mixing, processing, baking and wrapping of products in a modern bakery of today. The film's title was "Our Daily Bread."

Leon Moore was installed as a new member of the Lions Club, Lion Tamer James Josey officiating at the installation rites.

Following the luncheon meeting members of the club's board of directors approved general plans for Teaff said the list included Bob program chairman, will arrange
